

TRADE CBOE U.S. EQUITY INDEX OPTIONS ON TT[®]

Get access to the rapidly growing equity options trading space and leverage full trading session coverage across all hours.

The screenshot displays the TT trading interface for SPX options. On the left, an 'Options Chain' table lists various contracts with their respective bid, ask, and volume. A central window shows a detailed view of the 'CBOE SPX 17Apr25 C5500' contract, including a 'CERTIFICATION' section and a trading interface with 'Buy' and 'Sell' buttons. On the right, a detailed order book for the selected contract shows the current market state with columns for C Bid, C Ask, Strike, P Bid, and P Ask.

Contract	BidQty	Bid	Ask	AskQty	Vol	Settle	Status

Trading Technologies is the leading provider of multi-asset execution software to the global derivatives markets, with more than three decades of innovation and connectivity to dozens of exchanges.

Now the TT platform offers access to Cboe U.S. equity index options products, including its flagship S&P 500 Index (SPX), Cboe Volatility Index (VIX), Russell 2000 Index (RUT) and Mini SPX (XSP) contracts – enabling options traders to access both cash equity index and options on futures on one platform.

BENEFITS

NATIVE CONNECTIVITY

Trade five levels of market depth on SPX, XSP, VIX and other U.S. cash equity index options with native Cboe connectivity.

FULL TRADING SESSION COVERAGE

Trade through all market sessions including the Regular Trading Hours (RTH), Curb Trading and Global Trading Hours (GTH) for full trading session coverage.

ZERO DTE CONTRACTS

Trade the increasingly popular Zero Days To Expiry (0 DTE) contracts.

STRATEGY CREATION

Create and seamlessly trade Cboe options strategies natively utilizing TT's Strategy Creation and Watchlist widgets, and trade on the Complex Order Book.

FIX ORDER GATEWAY

Route native exchange orders from the TT platform to another network, platform, venue or broker.

RELATIVE VALUE TRADING

Trade both cash and derivatives on U.S. index options from multiple exchanges within one platform for relative value trading and hedging opportunities.
