

# TT<sup>®</sup> FX

Access curated FX over-the-counter (OTC) liquidity from the largest banks and ECNs on TT's market-leading execution management system (EMS).

## ACCESS SPOT LIQUIDITY VIA TT

Currently, TT allows you to trade spot foreign exchange (FX) and precious metals on the Cboe FX Sweepable market, EBS Market, EBS Direct and CME Group's new FX Spot+ platform using any of TT's order-entry and automation tools, including MD Trader<sup>®</sup>, Autospreader<sup>®</sup>, ADL<sup>®</sup> and SDKs, and execute a variety of outright, spread, basis and hedging strategies.

### CURRENCY PAIRS / METALS

Access more than 70 currency pairs and metals, including:

- ◆ G-10 currencies
- ◆ Deliverable emerging market currencies
- ◆ Non-deliverable forwards (NDFs)
- ◆ Cross currencies
- ◆ Gold, silver, platinum, palladium

We are continuing to build on this foundation to provide a comprehensive FX offering. By consolidating multiple asset classes into a single screen, TT will empower you to access opportunities not offered by any stand-alone FX platform, including:

- ◆ Additional Sweepable and Full Amount liquidity venues
- ◆ FX widget for trading full amount venues
- ◆ TT Premium Order Type support
- ◆ Request-for-quote / Request-for-stream (RFQ/RFS)
- ◆ Advanced position and P&L monitoring
- ◆ Spot, forwards, swaps, NDFs and bank algos
