

TRADE EPEX SPOT EUROPEAN SHORT-TERM POWER ON TT[®]

Leverage the market-leading trade execution platform to trade intraday power on the largest European power exchange alongside listed derivatives.

Trading Technologies is the leading provider of multi-asset execution software to the global derivatives markets, with three decades of innovation and connectivity to dozens of exchanges.

Now the TT platform offers access to EPEX SPOT, enabling power traders to leverage TT's award-winning¹ functionality for both physical and financial products, all on one screen. TT provides features that are unavailable through other trading systems, including the ability to:

- ◆ Enable real-time monitoring across all accounts: Stay ahead of the changing regulatory environment and meet REMIT compliance with real-time monitoring and alerts on positions, trades and P&L.
- ◆ Configure and manage pre-trade risk: Remain compliant by leveraging TT's suite of pre-trade risk controls to enable custom price reasonability checks.

TT is co-located in the EPEX SPOT data center, which ensures ultra-low latency connectivity. This is provided for a fixed monthly fee regardless of flow.

BENEFITS

GLOBAL CONNECTIVITY

Trade North American, European, Asian and Australian power derivatives, including short-term spot, daily, weekly, monthly, quarterly and calendar contracts for peak, off-peak and baseload power.

PERFORMANCE

Unlike many existing tools, you can trade during periods of extreme market volume with no degradation in performance.

COMPREHENSIVE DATA

View all tradable contract expirys with full market data, including detailed depth, in the Product Grid.

FLEXIBLE ACCESS

Trade from anywhere - desktop, web or mobile - to rapidly respond to changing market conditions in tight, fast-moving markets.

REAL-TIME MONITORING

Create custom alerts to instantly know when orders are filled or when P/L falls below a certain threshold. Receive instant notifications and take immediate action from your desktop or mobile device.

PRE-TRADE RISK MANAGEMENT

Manage your risk profile and avoid higher risk exposure before submitting orders into the market.

SPREAD TRADING²

Automatically hedge spot trades with power and gas futures using Autospreeder[®] and Spread Matrix, TT's powerful spread trading tools.

CUSTOMIZABLE ALGOS²

Leverage TT's best-in-class execution algorithms to take advantage of unique trading opportunities between spot and futures energy products.

AGGREGATION²

Use Aggregator to combine contracts from multiple exchanges into a synthetic instrument, then create routing rules to automatically balance order quantities and avoid message throttling.

TRADE GLOBAL ENERGIES

TT connects to 100+ global exchanges and trading venues. Use TT as your single platform to access the world's largest commodity, power and energy markets, including:

- ◆ Chicago Mercantile Exchange (CME)
- ◆ Dubai Gold & Commodities Exchange (DGCX)
- ◆ Dubai Mercantile Exchange (DME)
- ◆ Eurex
- ◆ European Energy Exchange (EEX)
- ◆ FEX Global
- ◆ HKEX
- ◆ Hong Kong Exchanges and Clearing (HKEX)
- ◆ ICE
- ◆ JPX (OSE & TOCOM)
- ◆ Montréal Exchange
- ◆ Nasdaq EU
- ◆ National Stock Exchange of India (NSE)
- ◆ Nodal Exchange
- ◆ Nord Pool²
- ◆ Singapore Exchange (SGX)

TRADABLE PRODUCTS

Automate trading and hedging across all major energy products, including:

- ◆ Power
- ◆ Carbon emissions
- ◆ Crude oil
- ◆ Gasoline
- ◆ Heating oil
- ◆ Coal
- ◆ Natgas & LNG
- ◆ Ethanol
- ◆ Uranium
- ◆ Renewables
